

Drug Craving Study

A McLean Hospital research group is conducting a five week study using a no-needle acupuncture treatment for cocaine, marijuana, alcohol, and cigarette use. You may qualify to participate if you:

- Are between the ages of 21 and 45
- Use cocaine, marijuana, or alcohol regularly or smoke cigarettes.
- Can come to the laboratory for study visits between 8am and 5pm (2 daily half-hour treatments)

You may earn up to \$705 for your participation. Please call our recruiting line 617-855-3823. All replies are completely confidential.
