

PTSD and Drug/Alcohol Problems

A research group at McLean Hospital is looking for volunteers to participate in a study examining the emotional effects of stress and drugs on the brain. Study participants may earn up to \$300. You may qualify if you are 20-59 years of age and fulfill one (or more) of the following criteria:

- have PTSD (post-traumatic stress disorder)
- are using drugs or alcohol
- are a healthy person without PTSD and without a history of heavy drugs/alcohol use
